About the Organiser & Co-organisers

The Hong Kong International Arbitration Centre (“HKIAC”)

The HKIAC was established by a group of leading business and professional people in Hong Kong to be the focus for Asia of dispute resolution in 1985. It has been generously funded by the business community and the HKSAR Government but it is totally

independent of both and financially self sufficient. The HKIAC aims to assist disputing parties to solve their disputes by arbitration and other means of dispute resolution. The HKIAC places great emphasis on providing online dispute resolution services in a wide variety of areas including intellectual property and information technology.

The Hong Kong Corporate Counsel Association (“HKCCA”)

The HKCCA is Hong Kong's only organisation for in-house lawyers run by in-house lawyers. It aims to provide a basis for fostering a dynamic community of corporate counsel that will give its members the chance to network with other in-house counsels and to share information and resources. In addition, the HKCCA hopes to be able to coordinate continuing educational opportunities, raise the profile of the in-house community in Hong Kong and provide a platform to establish views in respect of

issues that concern the in-house community and our respective employers, thereby providing a collective voice where representation is needed on behalf of the community.

The Inter-Pacific Bar Association (“IPBA”)

The Inter-Pacific Bar Association (“IPBA”) is an international association of business and commercial lawyers with a focus on the Asia-Pacific region. Members are either Asia-Pacific residents or have a strong interest in this part of the world. The IPBA was founded in April 1991 at an organising conference held in Tokyo that

was attended by more than 500 lawyers from throughout Asia and the Pacific. Since this time, it has grown to become a pre-eminent organisation in the area of Asia law and business with a membership of approximately 2,000 lawyers from 67 jurisdictions around the world.
